*"After my mother died, I found pictures of her family's crest in her belongings. I asked Cathy to make pendants from the crest design. We put them on strings of pearls (that Cathy restrung - beautifully) which had also been my mom's and I gave them to my daughters for graduation gifts. They have something lovely and meaningful to wear and enjoy for years to come. Cathy is great to work with - gives you options as well as her opinions. I couldn't have been more delighted with the results. I had earrings made for my sister and me and now am having more pendants made for other family members."*

Japanese family crests ("kamon") provide beautiful motifs for jewelry. Their elegance and refined style create jewelry that is visually stunning and destined to become a treasured family heirloom.

You may choose from any of the designs in this brochure, or, as many customers do, work with us to design a piece of jewelry exactly to your taste. We work in sterling and 14 and 18 karat gold. Gemstones and/or pearls may also be incorporated into your designs.

*"I emailed a picture of my family crest to Cathy, and asked if she could make it into a pendant. She was very helpful in answering questions and giving advice to make sure I got exactly what I wanted. I was very pleased with the final results. To have my own family crest on the pendant makes it a very special one-of-a-kind piece of jewelry!"*
